# BUDGET GUIDE

## OVERVIEW.

We understand that budgeting can be a confusing step as it relies on critical details that are different for every project.

This general guide was created with a few of the most common categories and meant to serve as a starting point.

There isn't a "one-size-fits-all" budget when designing a space. As such, all numbers listed here are not guaranteed nor required. They are general estimates and can fluctuate based on a number of factors at any given time.

We recommend line iteming each area you're looking to fulfill with the max spend in mind. From there, add everything up, and voila -- a working budget!
